DGTR corrects note d of the duty table in its mica pearlescent pigments CVD final finding

Case No. CVD (OI) - 1/2024 · Corrigendum · March 16, 2026

The Directorate General of Trade Remedies has issued a corrigendum notification, dated March 16, 2026, in the countervailing duty investigation Case No. CVD (OI) - 1/2024 concerning imports of effect pearlescent pigments or mica pearlescent pigments, excluding effect pigments for automotive applications.

The Director General issued the final finding in this investigation by notification F. No. 6/8/2024 - DGTR dated March 28, 2025. A corrigendum was then issued on June 16, 2025, and the present notification states that a typographical error occurred in that earlier corrigendum.

In supersession of all previous notifications, insofar as note no. d to the duty table is concerned, the note is substituted. As substituted, it provides that for effect pearlescent pigments or mica pearlescent pigments of synthetic grade other than for automotive application, since no anti-dumping duty is payable, the quantum of countervailing duty shall be equivalent to the amount payable as per column (7) of the duty table.

The notification does not restate the duty table, the subject countries or the duty amounts. It is signed by Amitabh Kumar, Designated Authority.
