DGTR opens new shipper review for China solar module frame exporter Anhui Krant

Case No. AD (NSR)-03/2025 · New shipper review · March 20, 2026

The Directorate General of Trade Remedies has initiated a new shipper review under Rule 22 of the Anti-Dumping Rules (Case No. AD (NSR)-03/2025), by an initiation notification dated March 20, 2026. The review is to determine an individual dumping margin for M/s Anhui Krant Aluminum Products Co., Ltd, a producer and exporter in China, under the anti-dumping duty on "Anodized aluminium frames for solar panels/modules" originating in or exported from China.

That duty was recommended by the Authority in Final Findings Notification No. 6/07/2023-DGTR dated June 29, 2024 and levied by the Central Government by Customs Notification No. 16/2024 - Customs (ADD) dated September 27, 2024 in the original anti-dumping investigation.

The company has stated that there were no exports during the original period of investigation and that it is neither related to any exporter or producer in China subject to the existing anti-dumping duty nor associated with any such entity in a manner that would affect the determination of an individual dumping margin. The Authority is prima facie satisfied that the conditions of Rule 22 are met. The period of investigation for the review is January 2025 to December 2025.

The Authority recommends provisional assessment on all exports of the subject goods by the company until the review is completed. Interested parties are to register on the SETU portal and file submissions, in confidential and non-confidential versions, under case ID AD/NSR/17112025/01 within 37 days from circulation of the non-confidential version of the application.

Applicant	M/s Anhui Krant Aluminum Products Co., Ltd (Producer and Exporter)
Period of investigation	January 2025 to December 2025 (12 Months)
Findings	• M/s Anhui Krant Aluminum Products Co., Ltd states that there were no exports during the original period of investigation and that it is neither related to any exporter or producer in the subject country who is subject to the existing anti-dumping duty nor associated with any such entity in a manner that would affect the determination of an individual dumping margin. • The Authority is prima facie satisfied that the conditions prescribed under Rule 22 of the AD Rules are met.
Recommendation	The Authority initiates a New Shipper Review to determine the individual dumping margin of M/s Anhui Krant Aluminum Products Co., Ltd, and recommends provisional assessment on all exports of the subject goods made by it until the review is completed.
Time limits	• Interested parties to intimate interest and file submissions and questionnaire responses (confidential and non-confidential versions) on the SETU portal under case ID AD/NSR/17112025/01: within 37 days from the date on which the non-confidential version of the application filed by M/s Anhui Krant Aluminium Products Co. Ltd. would be circulated by the Authority or transmitted to the appropriate diplomatic representative of the exporting country as per Rule 6(4) of the AD Rules, 1995 • Comments on issues of confidentiality: within 7 days from the date of circulation of the non-confidential version of the documents
What happens next	Under Rule 22(2), the Central Government does not levy anti-dumping duty on imports from the exporter during the review, but may resort to provisional assessment and ask a guarantee from the importer if the designated authority so recommends; if the review results in a determination of dumping, it may levy duty retrospectively from the date of initiation of the review.
