DGTR recommends anti-dumping duty on borosilicate glassware from China

Case No. AD (OI)-28/2025 · Final findings · September 24, 2026

The Directorate General of Trade Remedies has issued final findings dated September 24, 2026 in the anti-dumping investigation concerning imports of Borosilicate Table and Kitchen Glassware originating in or exported from China (Case No. AD (OI)-28/2025). The investigation was initiated on September 30, 2025 on an application by Borosil Limited, the sole producer of the like article in India.

The product covers borosilicate glassware for cooking, baking, serving and storage, such as bowls, baking dishes, casseroles, storage containers, mugs, plates and drinking glasses; the list is illustrative. Jars, carafes, tea/coffee kettles, water/juice jugs, water bottles, round storage jars, square storage jars and oil dispensers are excluded. The period of investigation is April 1, 2024 to March 31, 2025.

As the domestic industry is a new industry at the stage of establishment, the Authority examined the case as one of material retardation. It found dumping margins in the range of 25-35% for Anhui Deli Industrial Glass Co., Ltd. and 55-65% for any other producer, and injury margins in the range of 15-25% and 45-55% respectively. Subject imports accounted for 40-50% of demand, undercut the domestic industry's prices, were priced below its cost of sales and depressed and suppressed its prices, and the domestic industry's sales and selling price fell short of projections, with losses in place of projected profits.

The Authority concludes that the dumped imports have materially retarded the establishment of the domestic industry. It recommends anti-dumping duty for five years from the date of the Central Government's notification: US$ 703 per MT for Anhui Deli Industrial Glass Co., Ltd. and US$ 1,526 per MT for all other producers in China and for goods of any other origin exported from China.

Measure	Anti-dumping
Stage	Final findings
Case number	Case No. AD (OI)-28/2025
File number	F. No. 6/31/2025-DGTR
Dated	September 24, 2026
Published in the Gazette	September 24, 2026
Put online	October 2, 2026
Gazette ID	CG-DL-E-02102026-276721

Product	Borosilicate Table and Kitchen Glassware
What it covers	Borosilicate Table and Kitchen Glassware, or Borosilicate Tableware and Kitchenware, an end-use product for cooking, baking, serving and storage, including mixing and serving bowls, baking, oval, cake, souffle and roaster dishes, casseroles, oven bowls, storage containers, tea cups and mugs, plates, uno cups, kattori and drinking glasses; the list is illustrative and all kinds of such glassware are covered unless expressly excluded. Expressly excluded are jars, carafes, tea/coffee kettles, water/juice jugs, water bottles, round storage jars, square storage jars and oil dispensers.
Customs codes	7013 2800, 7013 3700, 7013 4200, 7013 4900, 7013 9900
Countries	China
Applicant	Borosil Limited
Period of investigation	1st April 2024 to 31st March 2025
Injury period	2021-22, 2022-23, 2023-24 and the period of investigation
Findings	• Borosil Limited, the sole producer of the like article in India, constitutes the domestic industry; its imports during the period of investigation were limited, made for bona fide reasons while its product range was being developed, declined and ceased after the period of investigation. • The domestic industry is a new industry at the stage of establishment, and the case was examined as one of material retardation to the establishment of an industry. • The dumping margin is in the range of 25-35% for Anhui Deli Industrial Glass Co., Ltd. and 55-65% for any other producer or exporter. • The injury margin is in the range of 15-25% for Anhui Deli Industrial Glass Co., Ltd. and 45-55% for any other producer or exporter. • Subject imports accounted for 40-50% of demand during the period of investigation and increased by 78% in the last quarter while demand remained broadly unchanged. • Subject imports undercut the domestic industry's prices significantly, were priced below its cost of sales, and depressed and suppressed its prices. • The domestic industry achieved its projected production and cost of sales, but its domestic sales were 44% and its selling price 17% below projections; it accumulated inventories and suffered financial losses, cash losses and a negative return on capital employed, against projected profits for its first year of operations.

- No other known factor, including third-country imports, demand, start-up operations, seasonality, export performance or the applicant's own imports, breaks the causal link, and imposition of anti-dumping duty is not against the public interest.
- Shijiazhuang Far East Import & Export Trading Co., Ltd., an exporter whose producers did not participate, was not granted an individual dumping or injury margin.

Recommendation	The Authority recommends anti-dumping duty for five years equal to the lesser of the margin of dumping and the margin of injury: US$ 703 per MT for Anhui Deli Industrial Glass Co., Ltd. and US$ 1,526 per MT for all other producers in China and for goods of any other origin exported from China.
Duty expressed as	US$ per MT
For how long	five (5) years from the date of the notification to be issued in this regard by the Central Government
What happens next	The duty is to apply from the date of the notification to be issued in this regard by the Central Government. An appeal against the order of the Central Government arising out of these final findings lies before the Customs, Excise and Service Tax Appellate Tribunal (CESTAT).

The duty table

Country	Producer	Duty
China PR (origin), exported from any country including China PR	Anhui Deli Industrial Glass Co., Ltd.	US$ 703 per MT
China PR (origin), exported from any country including China PR	Any producer other than at Sl. No. 1	US$ 1,526 per MT
Any country other than China PR (origin), exported from China PR	Any other	US$ 1,526 per MT
