BIS establishes 11 standards, four on floors for indoor sports

BIS · November 3, 2026

The Bureau of Indian Standards (BIS), Department of Consumer Affairs, issued notification Ref: HQ-PUB013/1/2020-PUB-BIS (1635) at New Delhi on November 3, 2026. It appeared in the Gazette of India, Extraordinary, Part III, Section 4, No. 669, dated November 6, 2026 (CG-DL-E-14112026-277919). BIS made it in pursuance of rule 15(1) of the Bureau of Indian Standards Rules, 2018. S. K. Verma, Scientist F & DDG (Hallmarking), signed it.

The schedule lists 11 Indian Standards, all established on October 28, 2026. Three of them replace an older standard, which stays in force alongside the new one until it's withdrawn on April 28, 2027. They cover the titrimetric determination of aluminum in zinc base alloys for die castings (IS 2600 (Part 7)), heat resistance, heat aging and humid aging on sole adhesion of complete footwear (IS 8085 (Part 1/Sec 2), replacing IS 8085 (Part 1) – 1986) and bimetallic tape for electrical contacts (IS 12714).

The other eight have no earlier standard to withdraw. Four are parts of IS 19990 on floors for indoor sports: selection and classification (Part 1), shock absorption and vertical deformation tests (Part 2), and the specification (Part 3/Sec 1) and installation, maintenance and inspection (Part 3/Sec 2) of PVC flooring. The rest cover optical emission spectrometry of zinc base alloys (IS 2600 (Part 8)), a nuclear energy vocabulary (IS 16902 (Part 3)), linear motion rolling bearing roller blocks (IS 19930) and isobutanol (bio-based) and isobutanol-blended automotive diesel fuel (IS 19957).

Four of the 11 are paired in the schedule with an ISO standard. The notification doesn't say what holders of a BIS licence on a replaced standard must do, beyond the April 28, 2027 withdrawal date.
