BIS

# BIS establishes 15 standards, from thermal spraying to fertilizer sacks

BIS notification 1630 lists 15 Indian Standards established on October 28, 2026. Nine older standards they replace stay in force until April 28, 2027.

THE BUREAU OF INDIAN Standards (BIS), Department of Consumer Affairs, issued notification Ref: HQ-PUB013/1/2020-PUB-BIS (1630) at New Delhi on November 3, 2026. It appeared in the Gazette of India, Extraordinary, Part III, Section 4, No. 664, dated November 6, 2026 (CG-DL-E-14112026-277912). BIS made it in pursuance of rule 15(1) of the Bureau of Indian Standards Rules, 2018. S. K. Verma, Scientist F & DDG (Hallmarking), signed it.

# BIS establishes 15 standards, from thermal spraying to fertilizer sacks

BIS · November 3, 2026

The Bureau of Indian Standards (BIS), Department of Consumer Affairs, issued notification Ref: HQ-PUB013/1/2020-PUB-BIS (1630) at New Delhi on November 3, 2026. It appeared in the Gazette of India, Extraordinary, Part III, Section 4, No. 664, dated November 6, 2026 (CG-DL-E-14112026-277912). BIS made it in pursuance of rule 15(1) of the Bureau of Indian Standards Rules, 2018. S. K. Verma, Scientist F & DDG (Hallmarking), signed it.

The schedule lists 15 Indian Standards, all established on October 28, 2026. Nine of them replace one or more older standards, 9 in all, which stay in force alongside the new ones until they're withdrawn on April 28, 2027. The two parts of IS 5905 on thermal spraying of zinc, aluminum and their alloys for corrosion protection, each a modified adoption of a part of ISO 2063, together replace IS 5905 : 1989 on sprayed aluminum and zinc coatings and IS 6586 : 1989 on metal spraying of iron and steel.

The other revisions cover waterproof drawing ink (IS 788), vegetable tanned leather for belting (IS 2954), fish oil for the leather industry (IS 4056), HDPE and polypropylene woven sacks for fertilizers (IS 9755, Seventh Revision), structural weather resistant steels (IS 11587), pressurized irrigation equipment terms (IS 14178) and woven ground covers for horticulture (IS 16202).

The six with no earlier standard to withdraw cover optical 3D coordinate measuring systems (IS 15635 (Part 13)), areal surface texture specification operators (IS 18431 (Part 3)), three parts of IS 19950 on ground-based remote sensing by lidar, and a framework for the circular economy in the construction sector (IS 19964). Seven of the 15 are paired in the schedule with an ISO standard. The notification doesn't say what holders of a BIS licence on a replaced standard must do, beyond the April 28, 2027 withdrawal date.
