BIS establishes 7 standards, from gas cylinders to health informatics

BIS · November 4, 2026

The Bureau of Indian Standards (BIS), Department of Consumer Affairs, issued notification Ref: HQ-PUB013/1/2020-PUB-BIS (1636) at New Delhi on November 4, 2026. It appeared in the Gazette of India, Extraordinary, Part III, Section 4, No. 668, dated November 6, 2026 (CG-DL-E-12112026-277869). BIS made it in pursuance of rule 15(1) of the Bureau of Indian Standards Rules, 2018. S. K. Verma, Scientist F & DDG (Hallmarking), signed it.

The schedule lists 7 Indian Standards, all established on November 3, 2026. Six of them replace an older version of the same standard, which stays in force alongside the new one until it's withdrawn on May 3, 2027. They cover refillable seamless steel gas cylinders of quenched and tempered steel (IS 7285 (Part 2), Fifth Revision), energy storage capacitors (IS 13666, replacing IS 13666 : 1993), tracheal tubes designed for laser surgery (IS/ISO 14408 : 2016), coupling capacitors and capacitor dividers (IS/IEC 60358-1 : 2025), and two health informatics standards on electronic prescriptions (IS 17769) and the International Patient Summary (IS 17888).

The seventh, IS 19916 : 2026, Light Gauge Metal Containers, Non-Refillable LPG Cartridges, Specification, is new and has no earlier standard to withdraw.

Four of the 7 are based on an ISO or IEC standard. The notification doesn't say what holders of a BIS licence on a replaced standard must do, beyond the May 3, 2027 withdrawal date.
