DGTR backs five more years of duty on aluminum foil

DGTR · September 14, 2026

These are the Final Findings of the Directorate General of Trade Remedies (DGTR), Department of Commerce, in the sunset review of anti-dumping duty on imports of "Aluminium foil 80 micron and below" originating in or exported from China, Indonesia, Malaysia and Thailand. The findings (Case No. AD(SSR-12/2025), F. No. 7/19/2025-DGTR) are dated September 14, 2026, and were published in the Gazette of India, Extraordinary, Part I, Section 1, No. 248, of the same date. They are signed by Amitabh Kumar, Designated Authority. DGTR initiated the review on September 29, 2025, on an application by Hindalco Industries Ltd., LSKB Aluminium Foils Pvt. Ltd., Raviraj Foils Ltd., Shree Venkateshwara Electrocast Pvt. Ltd., Shyam Sel and Power Ltd. and SRF Altech Ltd.

The duty under review was imposed by Notification No. 51/2021-Customs (ADD) dated September 16, 2021, for five years. The product is aluminum foil, whether or not printed or backed with paper, paper board, plastics or similar packaging materials, of a thickness of 80 micron and below. Thirteen items are excluded, among them Alu Alu laminate, capacitor foil below 500 mm wide, etched or formed foil, foil for beer bottles, adhesive tapes, and color coated and polyurethane coated foil. From China, only foil below 5.5 micron is covered: foil of 5.5 to 80 micron from China carries a separate duty under Notification No. 15/2025-Customs (ADD) of June 19, 2025, which the findings say is in force.

The period of investigation was April 1, 2024 to March 31, 2025, and the injury period covered 2021-22, 2022-23, 2023-24 and that period. DGTR determined dumping margins in ranges from 0-10% (Dingheng New Materials Co. Ltd and Malaysia) to 45-55% (other Thai producers), and injury margins from 0-10% (Malaysia) to 65-75% (other Thai producers). Imports from the four countries fell from 43,899 MT in 2021-22 to 14,751 MT in the period of investigation, 13,724 MT of it from Thailand, while Indian demand rose every year. DGTR found that imports from Thailand and Indonesia undercut the domestic industry's prices.

DGTR recommends continuing the duty for five years on all imports of the goods from the four countries. It is a fixed amount in US dollars per metric ton (MT), from USD 93.53 for Loften (Thailand) Co., Ltd. to USD 976.99 for Chinese producers other than the three listed. These are the rates now in force. DGTR did not accept the domestic industry's request to raise the duty on Thailand, and accepted the responding producers' and exporters' request to keep their individual rates. Those rates apply only against a commercial invoice carrying the declaration set out in the findings; without it, the rate for all others applies.

As printed, the duty table gives the country of export for goods originating in Malaysia and Indonesia as "Any country other than Malaysia" and "Any country other than Indonesia". An appeal against the Central Government's order on the findings lies before the Customs, Excise and Service Tax Appellate Tribunal. The duty now in force runs to December 15, 2026. Notification No. 10/2026-Customs (ADD), dated June 10, 2026, keeps the duty under Notification No. 51/2021-Customs (ADD) in force up to and inclusive of that date, unless revoked, superseded

or amended earlier. By October 28, 2026, the Ministry of Finance had notified no continuation; CBIC's list of 2026 anti-dumping notifications ran to No. 26/2026-Customs (ADD) of October 24, 2026.
