Five more years of anti-dumping duty on Chinese PET resin

CBIC · June 19, 2026

The Ministry of Finance (Department of Revenue) issued Notification No. 12/2026-Customs (ADD), G.S.R. 501(E), on June 19, 2026. It was published that day in the Gazette of India, Extraordinary, Part II, Section 3, Sub-section (i), No. 450. It imposes anti-dumping duty on "Polyethylene Terephthalate resin having an intrinsic viscosity of 0.72 decilitres per gram or higher" originating in or exported from China. A note to that description reads "Bottle-grade PET resin, excluding recycled PET resin". The tariff items are 3907 61 10, 3907 61 90, 3907 69 30 and 3907 69 90.

The designated authority started a review under section 9A(5), on continuing the duty imposed in 2021, by notification No. 07/15/2025-DGTR, dated September 23, 2025. Its final findings, under the same number and dated March 20, 2026, were published in the Gazette of India, Extraordinary, Part I, Section 1. The notification records three conclusions. The dumping margin and injury margin for all producers from China is positive and significant. Imports have increased at a significantly high rate despite the duties in force, and are likely to increase further without the duty. Imports are undercutting the domestic industry's prices and, without duties, are likely to suppress or depress them. The authority recommended continued imposition of the duty to remove injury to the domestic industry.

The duty is a fixed USD 200.66 per metric ton (MT) in both rows of the table, and both rows apply to "Any" producer. Row 1 covers goods originating in China and exported from any country, China included. Row 2 covers goods originating in any country other than China and exported from China. No producer has a rate of its own, and the notification sets no invoice declaration.

The duty is levied for five years from the date of publication of the notification in the Official Gazette, June 19, 2026, unless revoked, superseded or amended earlier. It is payable in Indian currency, at the exchange rate notified under section 14 of the Customs Act, 1962 on the date the bill of entry is presented under section 46. The notification supersedes Notification No. 18/2021-Customs (ADD), dated March 27, 2021 (G.S.R. 216(E)), "except as respects things done or omitted to be done before such supersession". It carries F. No. CBIC-190349/36/2026-TRU and is signed by Dheeraj Sharma, Under Secretary.

The notification does not give the dumping or injury margins, the period of investigation or the name of the domestic industry, and does not say what duty the 2021 notification imposed. As issued on March 27, 2021, that notification covered tariff items 3907 61 90 and 3907 69 90. It set USD 146.11, 15.54 and 60.92 per MT for the producers in China listed at serial numbers 1, 2 and 3, and USD 200.66 per MT for all others. Notification No. 25/2024-Customs (ADD), dated November 22, 2024, changed the USD 15.54 entry to 40.41. Notification No. 39/2025-Customs (ADD), dated December 26, 2025, kept the 2021 duty in force "up to and inclusive of the 26th June, 2026".
