BIS

The next Quality Control Orders, by date

A Bureau of Indian Standards page lists 31 Quality Control Order entries with enforcement dates from October 1, 2026 to June 5, 2027.

THE BUREAU OF INDIAN Standards publishes a web page titled "Upcoming QCOS – notified and due for implementation", last updated on October 22, 2026. It informs all stakeholders that the Quality Control Orders issued by the concerned ministry or department of the Government of India will come into force from the date given against

each product, and describes itself as advance information for better awareness. It lists 31 entries, each with the ministry or department, the product, the Indian Standard and the enforcement date. The page gives one date for each entry; several of the orders behind it set later dates for small and micro enterprises. The dates below are as of October 22, 2026.

The next Quality Control Orders, by date

BIS · October 6, 2026

The Bureau of Indian Standards publishes a web page titled "Upcoming QCOS – notified and due for implementation", last updated on October 22, 2026. It informs all stakeholders that the Quality Control Orders issued by the concerned ministry or department of the Government of India will come into force from the date given against each product, and describes itself as advance information for better awareness. It lists 31 entries, each with the ministry or department, the product, the Indian Standard and the enforcement date. The page gives one date for each entry; several of the orders behind it set later dates for small and micro enterprises. The dates below are as of October 22, 2026.

Entry 1 covers all electrical appliances intended for household, commercial or similar use with a rated voltage of not more than 250 V for single-phase appliances and 480 V for other appliances, including appliances supplied by direct current and battery-operated appliances, under IS 302 (Part 1) : 2024 and IEC 60335-1:2020. The page lists it for October 1, 2026, under the Department for Promotion of Industry and Internal Trade, with an illustrative list of 90 appliance types, from vacuum cleaners, dishwashers and cooking ranges to personal e-transporters and DC or battery-operated air purifiers.

Three woven sacks under the Department of Chemicals and Petrochemicals carry the dates set by the amending orders of October 6, 2026: polypropylene block bottom valve sacks for 50 kg cement (IS 16709:2017) from November 6, 2026, and HDPE/PP woven sacks for 50 kg cement (IS 11652:2017) and PP/HDPE laminated woven sacks for mail (IS 17399:2020) from January 6, 2027. Ten aluminum products under the Department for Promotion of Industry and Internal Trade, from bars, rods and sections for general engineering (IS 733:1983) to bars, rods, tubes, sections, plates and sheets for electrical applications (IS 5082:1998), are due on December 1, 2026. Linear alkyl benzene (IS 12795:2020) is listed for December 31, 2026, the end of the period from April 1 to December 31, 2026 for which S.O. 5343(E) of September 29, 2026 makes conformity to its Indian Standard not applicable.

The Ministry of Electronics and Information Technology entries are digital television receivers for satellite broadcast transmission (IS 18112:2022) from January 26, 2027 and glass screen protectors (IS 19348:2025) from April 1, 2027. Nine hand tools, from pipe wrenches to combination side cutting pliers, are listed for April 1, 2027, the general date in the Hand Tools (Quality Control) Order, 2026 (S.O. 5561(E), October 9, 2026), which sets July 1, 2027 for small enterprises and October 1, 2027 for micro enterprises. The page gives older editions of their standards, such as 4003 (Part 1):1978 and 3650:1981; the table gives the editions in the 2026 Order. Aluminum cans for beverages (IS 14407:2023) are listed for April 1, 2027 under the Department of Chemicals and Petrochemicals; the order that sets that date, S.O. 5624(E) of October 13, 2026, was issued by the Department for Promotion of Industry and Internal Trade

and sets the same later dates for small and micro enterprises. That order applies IS 1660:2024 to aluminum utensils with immediate effect, and aluminum utensils are no longer on the page.

Under the Department of Animal Husbandry and Dairying, mineral mixtures for cattle feed (IS 1664) and feed-grade dicalcium phosphate (IS 5470) are listed for April 1, 2027. Two other rows do not match the orders: entry 29 lists combination side cutting pliers (3650:1981) under that department for April 1, 2027, and entry 31 lists common salt and cattle licks (IS 920) under the Ministry of Textiles for June 5, 2027. In the gazette, IS 920 is the third standard in the department's order S.O. 5576(E) of October 7, 2026, due on April 1, 2027, and the Ministry of Textiles order S.O. 2871(E) of June 5, 2026 exempts polypropylene fiber ropes under IS 5175:2022 made out of recycled plastic waste for twelve months from its publication. The table gives those two rows from the gazette.

April 1, 2027	Glass screen protectors (IS 19348:2025); nine hand tools under the Hand Tools (Quality Control) Order, 2026; three animal feed inputs (IS 1664, IS 5470, IS 920); aluminum cans for beverages (IS 14407:2023)
June 5, 2027	Polypropylene fiber ropes made out of recycled plastic waste, IS 5175:2022
Taken from the gazette	Hand tool standards (S.O. 5561(E)); the department for aluminum cans (S.O. 5624(E)); entries 29 and 31 (S.O. 5576(E) and S.O. 2871(E))

The list as of October 22, 2026

Product	Indian Standard	Ministry / department	Enforcement date
---------	-----------------	-----------------------	------------------

All electrical appliances for household, commercial or similar use, up to 250 V single-phase and 480 V for other appliances, including DC-supplied and battery-operated appliances	IS 302 (Part 1) : 2024; IEC 60335-1:2020	Department for Promotion of Industry and Internal Trade	October 1, 2026
Polypropylene (PP) woven, laminated, block bottom valve sacks for packaging of 50 kg cement	IS 16709:2017	Department of Chemicals and Petrochemicals	November 6, 2026
Aluminum bars, rods and sections (for general engineering)	IS 733:1983	Department for Promotion of Industry and Internal Trade	December 1, 2026
Aluminum forging stock and forgings (for general engineering)	IS 734:1975	Department for Promotion of Industry and Internal Trade	December 1, 2026
Aluminum plate	IS 736:1986	Department for Promotion of Industry and Internal Trade	December 1, 2026
Aluminum sheet and strip	IS 737:2008	Department for Promotion of Industry and Internal Trade	December 1, 2026
Aluminum wire	IS 739:1992	Department for Promotion of Industry and Internal Trade	December 1, 2026
Aluminum rivet stock	IS 740:1977	Department for Promotion of Industry and Internal Trade	December 1, 2026
Aluminum extruded round tube and hollow sections	IS 1285:2002	Department for Promotion of Industry and Internal Trade	December 1, 2026
Aluminum wire for electrical use	IS 2067:1975	Department for Promotion of Industry and Internal Trade	December 1, 2026
Aluminum for making utensils	IS 21:1992	Department for Promotion of Industry and Internal Trade	December 1, 2026
Aluminum bars, rods, tubes, sections, plates and sheets for electrical use	IS 5082:1998	Department for Promotion of Industry and Internal Trade	December 1, 2026
Linear alkyl benzene	IS 12795:2020	Department of Chemicals and Petrochemicals	December 31, 2026

High density polyethylene (HDPE)/polypropylene (PP) woven sacks for packaging of 50 kg cement	IS 11652:2017	Department of Chemicals and Petrochemicals	January 6, 2027
Polypropylene (PP)/high density polyethylene (HDPE) laminated woven sacks for mail sorting, storage, transport and distribution	IS 17399:2020	Department of Chemicals and Petrochemicals	January 6, 2027
Digital television receivers for satellite broadcast transmission	IS 18112:2022	Ministry of Electronics and Information Technology	January 26, 2027
Glass screen protector – specification	IS 19348:2025	Ministry of Electronics and Information Technology	April 1, 2027
Pipe wrenches, Part 1 general purpose	IS 4003 (Part 1):2026	Department for Promotion of Industry and Internal Trade	April 1, 2027
Pipe wrenches, Part 2	IS 4003 (Part 2):2026	Department for Promotion of Industry and Internal Trade	April 1, 2027
Open jaw wrenches (spanners)	IS 2028:2026	Department for Promotion of Industry and Internal Trade	April 1, 2027
Ring wrenches (spanners)	IS 2029:2026	Department for Promotion of Industry and Internal Trade	April 1, 2027
Single ended open-jaw adjustable wrenches	IS 6149:2025	Department for Promotion of Industry and Internal Trade	April 1, 2027
Chain pipe wrenches	IS 4123:2024	Department for Promotion of Industry and Internal Trade	April 1, 2027
Open-ended slugging wrenches (spanners)	IS 4508:2024	Department for Promotion of Industry and Internal Trade	April 1, 2027
Ring slugging wrenches (spanners)	IS 4509:2024	Department for Promotion of Industry and Internal Trade	April 1, 2027
Combination side cutting pliers	IS 3650:2026	Department for Promotion of Industry and Internal Trade	April 1, 2027

Mineral mixtures for supplementing cattle feeds	IS 1664	Department of Animal Husbandry and Dairying	April 1, 2027
Dicalcium phosphate, animal feed grade	IS 5470	Department of Animal Husbandry and Dairying	April 1, 2027
Common salt and cattle licks for animal consumption	IS 920	Department of Animal Husbandry and Dairying	April 1, 2027
Aluminum cans for beverages	IS 14407:2023	Department for Promotion of Industry and Internal Trade	April 1, 2027
Fiber ropes — polypropylene split film, monofilament and multifilament (PP2) and polypropylene high-tenacity multifilament (PP3) — 3-, 4-, 8- and 12-strand ropes, made out of recycled plastic waste	IS 5175:2022	Ministry of Textiles	June 5, 2027
